

“LA MIA AFRICA”

Nairobi – Amboseli - Tsavo West – Tsavo East

5 days / 4 nights

" La mia Africa "

Once upon a time in Africa ...

Thus, began the adventure of Karen Blixen in Kenya ...

The emancipation of the Danish writer at the beginning of the century passes through her stay in Kenya where she carries on a coffee cultivation and weaves an important relationship with the English Denys Finch Hatton a free spirit that introduces her into African nature and makes her rediscover the most primitive part, the one often suffocated by conventions and superstructures.

"Whoever dreams and sleeps at night knows a kind of happiness unknown to the world of wakefulness: a placid ecstasy and a rest of the heart that are like honey on the tongue. He also knows that the true beauty of dreams is their atmosphere of infinite freedom: not the freedom of the dictator who wants to impose his will, but the freedom of the unwilling artist, free from will. The pleasure of the true dreamer does not depend on the substance of the dream, but on this: everything that happens in the dream, does not happen only without his intervention, but outside his control ... "

DAVID SHELDRIK WILDLIFE TRUST ORPHANAGE

Born from the passion of a family for Kenya and its wild nature, the David Sheldrick Wildlife Trust is today the most successful elephant rescue and rehabilitation program in the world and one of the pioneering conservation organizations for wildlife and animal protection, and for the habitat in East Africa.

GIRAFFE CENTER

The Africa Fund for Endangered Fauna (AFEW) in Kenya was founded in 1979 by the late Jock Leslie-Melville, a Kenyan citizen of British origin, and his American-born wife, Betty Leslie-Melville.

They founded the Giraffe Center after discovering the sad condition of the Rothschild Giraffe. A subspecies of the giraffe that is found only in the East African grasslands.

KAREN BLIXEN MUSEUM

The Karen Blixen Museum was once the home of a farm at the foot of the Ngong Hills owned by Danish author Karen and her Swedish husband, Baron Bror von Blixen Fincke. The farm has become internationally famous with the release of the film "Out of Africa" (La mia Africa).

MOUNT KILIMANJARO

Mount Kilimanjaro with its three volcanic cones, "Kibo", "Mawenzi", and "Shira", is a dormant volcano in Tanzania. It is the highest mountain in Africa, with its summit about 4,900 metres (16,100 ft) from its base, and 5,895 metres (19,341 ft) above sea level.

The first people known to have reached the summit of the mountain were Hans Meyer and Ludwig Purtscheller, in 1889. The mountain is part of Kilimanjaro National Park and is a major climbing destination. The mountain has been the subject of many scientific studies because of its shrinking glaciers and disappearing ice fields.

Kilimanjaro is a large stratovolcano composed of three distinct volcanic cones: Kibo, the highest; Mawenzi at 5,149 metres (16,893 ft); and Shira, the lowest at 4,005 metres (13,140 ft). Mawenzi and Shira are extinct, while Kibo is dormant and could erupt again.

Kibo is the largest cone on the mountain and is more than 24 km (15 mi) wide at the Saddle Plateau altitude. The last activity here, dated to 150,000–200,000 years ago, created the current Kibo summit crater. Kibo still has gas-emitting fumaroles in its crater.

AMBOSELI NATIONAL PARK

“Home of the African Elephant”

Crowned by Mount Kilimanjaro, Africa's highest peak, the Amboseli National Park is one of Kenya's most popular parks. The name "Amboseli" comes from a Maasai word meaning "salty dust", and it is one of the best places in Africa to view large herds of elephants up close. Nature lovers can explore five different habitats here ranging from the dried-up bed of Lake Amboseli, wetlands with sulphur springs, the savannah and woodlands.

The park is famous for being the best place in the world to get close to free-ranging elephants. Other attractions of the park include opportunities to meet Maasai and visit a Maasai village. The park also has views of Mount Kilimanjaro, the highest free-standing mountain in the world.

Amboseli National Park offers some of the best opportunities to see African wildlife because the vegetation is sparse due to the long, dry months. The protected area is home to African bush elephant, Cape buffalo, impala, lion, cheetah, spotted hyena, Masai giraffe and blue wildebeest. A host of large and small birds occur too.

MZIMA SPRINGS

Mzima Springs are a series of four natural springs in Tsavo National Park, Kenya. They are located in the west of the Park, around 48 km from Mtito Andei. The source of the springs is a natural reservoir under the Chyulu Hills to the north.

The Chyulu range is composed of volcanic lava rock and ash, which is too porous to allow rivers to flow. Instead, rain water percolates through the rock, and may spend 25 years underground before emerging 50 kilometres away at Mzima.

The natural filtration process gives rise to Mzima's famously clear stream, which flows through a series of pools and rapids. Two kilometres downstream from the springs, the stream is blocked by a solidified lava flow and disappears below the surface again.

Mzima is one of the most famous natural attractions of Tsavo West thanks to the hippos and crocodiles of the Nile that live here in the spring pools.

TSAVO EAST NATIONAL PARK

“Theatre of the Wild”

Tsavo East National Park is one of the oldest and largest parks in Kenya at 13,747 square kilometres. Situated in a semi-arid area previously known as the Taru Desert it opened in April 1948, and is located near the town of Voi in the Taita-Taveta County of the former Coast Province. The park is divided into east and west sections by the A109 road and a railway. Named for the Tsavo River, which flows west to east through the national park, it borders the Chyulu Hills National Park,

The sight of dust-red elephant wallowing, rolling and spraying each other with the midnight blue waters of palm-shaded Galana River is one of the most evocative images in Africa. This, along with the 300 kilometres long Yatta Plateau, the longest lava flow in the world, make for an adventure unlike any other in the Tsavo East.

The park forms the largest protected area in Kenya and is home to most of the larger mammals, vast herds of dust –red elephant, Rhino, buffalo, lion, leopard, pods of hippo, crocodile, waterbucks, lesser Kudu, gerenuk and the prolific bird life features 500 recorded species.
