

# “RED TSAVO”

Tsavo East  
2 days / 1 night

## " Red Tsavo "

### TSAVO EAST NATIONAL PARK

Tsavo East National Park is one of the oldest and largest parks in Kenya at 13,747 square kilometres. Situated in a semi-arid area previously known as the Taru Desert it opened in April 1948, and is located near the town of Voi in the Taita-Taveta County of the former Coast Province.

The park is divided into east and west sections by the A109 road and a railway. Named for the Tsavo River, which flows west to east through the national park, it borders the Chyulu Hills National Park,

The sight of dust-red elephant wallowing, rolling and spraying each other with the midnight blue waters of palm-shaded Galana River is one of the most evocative images in Africa.

This, along with the 300 kilometres long Yatta Plateau, the longest lava flow in the world, make for an adventure unlike any other in the Tsavo East. The park forms the largest protected area in Kenya and is home to most of the larger mammals, vast herds of dust -red elephant, Rhino, buffalo, lion, leopard, pods of hippo, crocodile, waterbucks, lesser Kudu, gerenuk and the prolific bird life features 500 recorded species.
